CIRCULAR FOR PARENTS REGARDING ONLINE CLASSES

Dear Parents,

In these critical times due to COVID-19, the school has taken a step towards using various digital platforms to ensure educational continuity. We have already started with online classes for grade 9 to 12 and are connecting with rest of the grades through online assignments and videos.

We seek your cooperation for the same and request you to ensure that your child attends the online sessions and completes their assignment regularly. Please be informed that attendance for the online classes is mandatory and the syllabus completed during the lockdown period, will not be covered again.

We request you to keep yourselves abreast with the notifications sent on WhatsApp / digicamp / school website. Please monitor your child's activities while using the internet .Encourage them to join you in doing household chores and work towards keeping them physically and mentally fit.

For any queries, you are requested to drop a WhatsApp message to the class teacher with your details. We will try our best to resolve/address your issues.

We look forward to your proactive participation in transforming the concept of school centric to Parent School Partnership.

Stay home, stay safe!
